Technical Functions: 1 (Philosophy of Engineering and Technology)

Wybo Houkes, Pieter E. Vermaas

Technical Functions: 1 (Philosophy of Engineering and Technology) Wybo Houkes, Pieter E. Vermaas
This first book-length study in the philosophy of technical artefacts and their technical functions presents a new action-theoretical account of using and designing called the ICE theory. This theory connects the material side of technical artefacts with the aims of everyday users and the tasks of engineers when designing for those everyday users. Wybo Houkes and Pieter Vermaas have developed ICE theory in close contact with the engineering literature on designing and the literature on functions in the philosophy of biology and philosophy of mind. As such the book is a telling example of the successful new school of philosophy of technology that is aimed at understanding engineering and technology on their own merits. The book presents the reader with a broad and detailed understanding of technical artefacts and their functions, which is sensitive to the dynamic and socially structured practices of using and designing. This understanding shows how our technology-saturated everyday life can be subjected to rigorous philosophical analysis, and how artefacts and technical functions provide an area of inquiry that is equally fascinating as, but genuinely different from, biological items and their functions.

From reader reviews:

Robert Tyson:

Why don't make it to be your habit? Right now, try to prepare your time to do the important take action, like looking for your favorite e-book and reading a publication. Beside you can solve your short lived problem; you can add your knowledge by the book entitled Technical Functions: 1 (Philosophy of Engineering and Technology). Try to the actual book Technical Functions: 1 (Philosophy of Engineering and Technology) as your friend. It means that it can to become your friend when you feel alone and beside associated with course make you smarter than ever. Yeah, it is very fortunated for you. The book makes you more confidence because you can know every little thing by the book. So , we should make new experience and also knowledge with this book.

Belen Riedel:

People live in this new time of lifestyle always make an effort to and must have the extra time or they will get wide range of stress from both day to day life and work. So , if we ask do people have spare time, we will say absolutely of course. People is human not just a robot. Then we ask again, what kind of activity have you got when the spare time coming to a person of course your answer will probably unlimited right. Then do you ever try this one, reading ebooks. It can be your alternative in spending your spare time, often the book you have read is actually Technical Functions: 1 (Philosophy of Engineering and Technology).

Jill Lee:

Technical Functions: 1 (Philosophy of Engineering and Technology) can be one of your beginning books that are good idea. We recommend that straight away because this book has good vocabulary that could increase your knowledge in words, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to get every word into delight arrangement in writing Technical Functions: 1 (Philosophy of Engineering and Technology) but doesn't forget the main point, giving the reader the hottest in addition to based confirm resource facts that maybe you can be one of it. This great information can drawn you into brand new stage of crucial considering.

Millie Goodman:

You may get this Technical Functions: 1 (Philosophy of Engineering and Technology) by visit the bookstore or Mall. Just simply viewing or reviewing it can to be your solve problem if you get difficulties for the knowledge. Kinds of this publication are various. Not only by written or printed and also can you enjoy this book through e-book. In the modern era such as now, you just looking from your mobile phone and searching what their problem. Right now, choose your current ways to get more information about your guide. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose right ways for you.
