Global Epidemiology: A Geography of Disease and Sanitation, Volume I presents a survey of the medical, health, and sanitary conditions of various geographic areas of the world.

The book brings together certain data, based on surveys made for the Medical Department of the United States Army. This volume includes medical information about India, the Far East, and the Pacific area. The text aims to provide vital information to meet the problems of international health and the spread of disease. The monograph will be of use to epidemiologists, health workers, physicians, and public health experts.
