## **Cosmic Weather Report: Notes from the Edge of the Universe** Mark Borax, Ellias Lonsdale

On a planet facing environmental and geopolitical catastrophes on every continent, the idea that human beings need to “evolve or die” is gaining currency on an almost daily basis. *Cosmic Weather Report* tackles the personal and collective obstacles to world transformation head-on, inspiring readers to rethink the whole purpose of humankind, and change their lives—and the course of the planet’s future—from within.

In this book, eminent astrologers Mark Borax and Ellias Lonsdale pool their talents to explore what we are emerging from—“the age we need to leave behind”—and what we are approaching—“the age we’re on the verge of creating.” Readers are encouraged to see how the greatest difficulties can be seized for optimal growth. While *Cosmic Weather Report* is not an astrology book per se, it uses astrological concepts, which can also be read as metaphors to convey the universal scale of the transformations taking place. Preserving the lecture format and question-and-answer dialogue of Lonsdale and Borax’s famed mystery school, the authors usher readers into an exciting classroom of evolution in which students get to quiz the teachers.

*From the Trade Paperback edition.*
