Richard Wagner (Critical Lives)

Ray Furness

Richard Wagner (Critical Lives) Ray Furness

Few of the great composers can claim a body of work as influential and contentious as Richard Wagner; his life and compositions remain intertwined with the great upheavals of his time, and this often obscures a dispassionate critical assessment of his output.

In Richard Wagner Raymond Furness provides a clear and balanced view of Wagner's great achievements, without neglecting the controversies in his life and art. Using the composer's wide-ranging engagement with mythology as his starting point, Furness explores Wagner's music and extensive literary output. As well as giving the reader a clear insight into The Ring and Wagner's other essential works, the book also deals with often-neglected fragments such as 'Wieland the Smith', 'The Mines at Falun' and 'The Visitors', providing a more rounded critical picture of a composer whose great operatic works often overshadow the rest of his canon.

Containing up-to-date dissections of recent Bayreuth productions and a refreshingly uncluttered approach to a much-misunderstood life, Furness's Richard Wagner will engage both those new to the life of the composer, as well as his many life-long devotees.
