Tired of federal deadlock? Do you trust our federal government anymore? Does it seem to you that the “elites” in Washington have an agenda that doesn’t exactly fall in line with the best interests of our country? Is it time to “Take Back America?” Picking up where “Rescued and Remembered” left off ... Lynch Cully has found that recovering his memory might be the easy part of “coming back from the dead.” His job is gone. His relationship with Amy Gibbs is on the rocks and the status of Danijela is smeared by a huge question mark. As he recovers from his wound, anxious to leave the hospital, an old friend, Sgt. Seamus O’Connor, picks up the slack on the Major Case Squad in response to a 9-1-1 Code 1000 call – all available units respond – to a shooting at a private Christian school. Automatic gunfire reported. Meanwhile, Bradley Graham, the keynote speaker at the American Patriot Conservative Caucus, has sent a shockwave through the political “circus” in this country. In announcing the successful formation of a new political party, the American Party, and its record number of both grass roots membership and fund raising, he has challenged the mainstream political world unlike the Libertarians or any other group before it. In doing so, he may as well tattoo a target on his forehead. Has God finally turned His back on America? To the point where He would allow a shooting to occur in a Christian school, a school dedicated to his Glory? Or, will the boldness of the American Party begin to re-chart the course of society back toward those God-given rights that so many Americans have fought and died to preserve? Perhaps more than a few guardian angels are working overtime.
