*"We are given this world and some time with friends. How time dawned on mind and was beaded into language amazes me the way an orb-spider's web or a computer-chip does. . . ."*

Carter Revard, Osage Indian poet, Rhodes scholar, and professor of medieval English literature, shares both this amazement and his amazing command of language in this first retrospective collection of 40 published and unpublished pieces written from 1970 to 1991.
