Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine)

Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine)

Research and development in the pharmaceutical industry is a time-consuming and expensive process, making it difficult for newly developed drugs to be formulated into commercially available products. Both formulation and process development can be optimized by means of statistically organized experiments, artificial intelligence and other computational methods. Simultaneous development and investigation of pharmaceutical products and processes enables application of quality by design concept that is being promoted by the regulatory authorities worldwide. Computer-aided applications in pharmaceutical technology covers the fundamentals of experimental design application and interpretation in pharmaceutical technology, chemometric methods with emphasis of their application in process control, neural computing (artificial neural networks, fuzzy logic and decision trees, evolutionary computing and genetic algorithms, self-organizing maps), computer-aided biopharmaceutical characterization as well as application of computational fluid dynamics in pharmaceutical technology. All of these techniques are essential tools for successful building of quality into pharmaceutical products and processes from the early stage of their development to selection of the optimal ones. In addition to theoretical aspects of various methods, the book provides numerous examples of their application in the field of pharmaceutical technology.

- A comprehensive review of the current state of the art on various computer aided applications in pharmaceutical technology
- Case studies are presented in order to facilitate understanding of various concepts in computer-aided applications

From reader reviews:

Anna Lewis:

Here thing why this Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) are different and trustworthy to be yours. First of all reading through a book is good however it depends in the content of computer which is the content is as tasty as food or not. Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) giving you information deeper including different ways, you can find any reserve out there but there is no reserve that similar with Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine). It gives you thrill examining journey, its open up your own personal eyes about the thing which happened in the world which is possibly can be happened around you. You can actually bring everywhere like in recreation area, café, or even in your technique home by train. For anyone who is having difficulties in bringing the printed book maybe the form of Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) in e-book can be your alternative.

Jerry Raminez:

This Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) usually are reliable for you who want to be described as a successful person, why. The main reason of this Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) can be among the great books you must have is giving you more than just simple examining food but feed a person with information that possibly will shock your prior knowledge. This book is actually handy, you can bring it almost everywhere and whenever your conditions in e-book and printed versions. Beside that this Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) giving you an enormous of experience for example rich vocabulary, giving you demo of critical thinking that we know it useful in your day exercise. So , let's have it appreciate reading.

Lula Day:

The book untitled Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) is the reserve that recommended to you to read. You can see the quality of the e-book content that will be shown to you. The language that publisher use to explained their ideas are easily to understand. The author was did a lot of investigation when write the book, to ensure the information that they share to your account is absolutely accurate. You also could possibly get the e-book of Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) from the publisher to make you a lot more enjoy free time.

Ralph Sanchez:

Reading a book for being new life style in this year; every people loves to examine a book. When you examine a book you can get a lot of benefit. When you read books, you can improve your knowledge, since

book has a lot of information upon it. The information that you will get depend on what kinds of book that you have read. If you would like get information about your research, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, such us novel, comics, and also soon. The Computer-Aided Applications in Pharmaceutical Technology (Woodhead Publishing Series in Biomedicine) provide you with new experience in reading a book.
