Steiner's Theosophy and Principles of Spiritual Science

Carl Unger

Steiner's Theosophy and Principles of Spiritual Science Carl Unger

"[In February 1904] Dr. Steiner began his lecture tours. Meanwhile, his book *Theosophy* was published, and I threw myself into it with the greatest enthusiasm, wrestling with it for months with every page, every sentence, and many words. When I had the foundation for a judgment, which I had somewhat carelessly expressed after my visit to Berlin, I would follow this man blindfolded. For now I had learned to follow with open eyes." ?**Carl Unger**

In part one, Carl Unger outlines and unlocks one of Rudolf Steiner's most essential works, *Theosophy: An Introduction to the Spiritual Processes in Human Life and in the Cosmos* (CW 9). As a close personal student of Rudolf Steiner and a member of his esoteric school, Carl Unger gained deep understanding of Steiner's most profound works, especially *Theosophy*. For those who want to "crack" this book and are willing to work, Carl Unger's commentary will prove enlightening and help the reader penetrate beyond an intellectual understanding of Steiner's seminal work.

In part two, the author guides the reader through the essential principles that underlay anthroposophic Spiritual Science. In his foreword to its earlier publication, Alan Howard wrote, "This little volume, though not the only work from Unger's hand, is the essence of what he did in this field. It is not everybody's book, nor, even for those who decide to take it up, an easy book. Each sentence builds closely on all that precede it; each is essential to all that follow. For those students, however, who seek a secure foundation in pure thought for the suprasensory realities of which Steiner speaks, and are willing to give it the study it deserves, this book will be a continuing reward and delight."

"[You will] sense that there is great benefit when intentions surface within the Anthroposophical Society that strive toward an elaboration of epistemological principles in the best of all epistemological senses. And since we have a worker of extraordinary significance in this area (Dr. Carl Unger) right here in Stuttgart, this should be seen as a beneficial stream within our Movement." ?**Rudolf Steiner** (Aug. 17, 1908)
