The Economics of Structural Change in Knowledge (Routledge Studies in Global Competition)

Francesco Quatraro

This book provides an elaboration upon the concept of knowledge from an economic viewpoint. However this is not a book on economics of knowledge, at least not in the conventional sense. Most of the existing books on the matter have focused on the treatment of knowledge in terms of properties of knowledge as an economic good, incentive schemes for the creation of knowledge, issues about the codified/tacit nature of knowledge and the like.
