The Special Edition is the first two volumes of the Fretboard Logic guitar series combined with a special discount. Part One deals with the pattern organization of the fretboard which results from the guitar's unique tuning system. Part Two teaches the tone groups of music - Chords, Scales and Arpeggios - by building them in the context of this pattern organization, and thereby eliminating the usual guesswork and rote memorization associated with these areas of a guitarist's education. This alone can take years off the learning curve. Combined, the two parts form a solid foundation by which a guitarist can intelligently pursue the music styles of their own choosing, and play them on the guitar types which they prefer.
