Intelligent Transportation Systems: New Principles and Architectures (Mechanical and Aerospace Engineering Series) Sumit Ghosh, Tony Lee, Tony S. Lee

For many transportation systems, the cost of expanding the infrastructure is too high. Therefore, engineers must shift their focus to improving the quality of transportation within the existing infrastructure. Focusing on highway and railway systems, Intelligent Transportation Systems: New Principles and Architectures provides a radically different approach to transportation systems design - one that closely resembles reality and promises to yield an architecture that delivers the highest efficiency.
