A great read is just the beginning...

Instructor and student evaluations from coast to coast attest to the authors' captivating writing. These award-winning bestselling authors know how to enthrall students with the subject they love best--psychology. But in the new edition of *Introducing Psychology*, they go even further to ensure that students won't commit one of the seven sins of memory--forgetting what they just read. Special **Cue Questions** and **Critical Thinking** questions give students the opportunity to process psychological concepts and aid their understanding and memory. And if you've ever heard someone parrot a widespread misconception, you'll welcome the new **Changing Minds** questions, short scenarios which ask students to confront common misunderstandings of psychological phenomena. Now the book that students love to read is as unforgettable as ever!
