## **Life On The Edge** Michael Gross

Can life exist in the Antarctic ice, in the deep subsurface, in dilute sulfuric acid, in hot springs-even on Mars? What degree of high or low temperature, pressure, or salt concentration can living cells tolerate? In recent years, scientists have discovered many single-cell creatures that exist in-in fact, are perfectly adapted to-extreme environments that were considered uninhabitable just one or two decades ago. In *Life on the Edge*, author Michael Gross explores how microorganisms adapt to their hostile environments and how they affect our current definition of the "normal" conditions for life. He also describes the vast implications of these extremophiles and other amazing creatures-from potential breakthroughs in medicine and biotechnology to the search for life elsewhere in the universe.

### From reader reviews:

#### **Melissa Conner:**

As people who live in the actual modest era should be upgrade about what going on or information even knowledge to make these individuals keep up with the era and that is always change and progress. Some of you maybe will probably update themselves by examining books. It is a good choice for yourself but the problems coming to a person is you don't know which you should start with. This Life On The Edge is our recommendation to cause you to keep up with the world. Why, because book serves what you want and wish in this era.

#### **Scottie Kelly:**

Your reading 6th sense will not betray a person, why because this Life On The Edge guide written by well-known writer whose to say well how to make book which might be understand by anyone who read the book. Written with good manner for you, leaking every ideas and creating skill only for eliminate your own hunger then you still question Life On The Edge as good book not just by the cover but also with the content. This is one reserve that can break don't determine book by its handle, so do you still needing yet another sixth sense to pick that!? Oh come on your examining sixth sense already said so why you have to listening to an additional sixth sense.

#### **Elizabeth Blake:**

Reading a book to be new life style in this calendar year; every people loves to read a book. When you study a book you can get a lot of benefit. When you read textbooks, you can improve your knowledge, since book has a lot of information on it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your review, you can read education books, but if you act like you want to entertain yourself read a fiction books, this sort of us novel, comics, along with soon. The Life On The Edge offer you a new experience in studying a book.

#### **Mary Curtis:**

Is it an individual who having spare time then spend it whole day by simply watching television programs or just laying on the bed? Do you need something new? This Life On The Edge can be the response, oh how comes? A fresh book you know. You are and so out of date, spending your extra time by reading in this fresh era is common not a nerd activity. So what these publications have than the others?
