Leptospira and Leptospirosis (Current Topics in Microbiology and Immunology)

Leptospira and Leptospirosis (Current Topics in Microbiology and Immunology)

This volume covers all aspects of infection by pathogenic *Leptospira* species, the causative agents of the world's most widespread zoonosis. Topics include aspects of human and animal leptospirosis as well as detailed analyses of our current knowledge of leptospiral structure and physiology, epidemiology, pathogenesis, genomics, immunity and vaccines. Updates are presented on leptospiral systematics, identification and diagnostics, as well as practical information on culture of *Leptospira*. Contact information is also provided for *Leptospira* reference centers.

All chapters were written by experts in the field, providing an invaluable reference source for scientists, veterinarians, clinicians and all others with an interest in leptospirosis.
