Socialize Your Patient Engagement Strategy: How Social Media and Mobile Apps Can Boost Health Outcomes Letizia Affinito, John Mack

Socialize Your Patient Engagement Strategy makes the case for a fundamentally new approach to healthcare communication; one that mobilizes patients, healthcare professionals and uses new media to enable gathering, sharing and communication of information to achieve patient-centricity and provide better value for both organizations (in terms of profit) and patients (in terms of better service and improved health). Letizia Affinito and John Mack focus on three priority areas for actions: Improving Health Literacy (e.g. web sites; targeted mass digital campaigns), Improving Self-care (e.g. self-management education; self-monitoring; self-treatment), Improving Patient Safety (e.g. adherence to treatment regimens; equipping patients for safer selfcare). The authors explain the healthcare context to the digital communications revolution; the emerging digital marketing and communications techniques that enable this revolution and the core elements behind a patient-driven digital strategy. Drawing on the authors'™ research and consulting practices, as well as on the practical experience of managers in medium-large companies worldwide, the book provides a proven framework for improving the development and implementation of patient-centered digital communication programs in healthcare organizations. It is an engaging how-to/how-not-to book which includes tips, advice, and critical reviews that every stakeholder dealing with the healthcare system must have in order to participate in the evolving healthcare system and be more active in making strategic patient-centered choices. Socialize Your Patient Engagement Strategy includes interviews with experts and leading case histories of successful digital communication programs in the healthcare arena. While there are books that focus on specific healthcare communicators within different types of organizations, in their book the authors recognize that effective patient-centric communication crosses all organizational boundaries. That is, putting the patient first is a priority for ALL healthcare communicators.

May be it can be best activity to you.

Helen Widner:

As a university student exactly feel bored to help reading. If their teacher asked them to go to the library or to make summary for some book, they are complained. Just very little students that has reading's heart and soul or real their pastime. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that reading is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important in your

case. As we know that on this era, many ways to get whatever we wish. Likewise word says, ways to reach Chinese's country. So , this Socialize Your Patient Engagement Strategy: How Social Media and Mobile Apps Can Boost Health Outcomes can make you truly feel more interested to read.
